Hey, Scott Angelle. U're mother should have swallowed u, u living error. U r the third best living argument for abortion, right behind ur president and Ted Cruz

Hi Scott,

This is Trish Fritz. Kate M. just sent me your contact information. I would love to find some time to do a meet and greet and see if there is anything I can help you with. How does your calendar look over the next few days? I'm available tomorrow, before 9:30 on Monday and after 3:30. More times are available but I thought I would start with this.

Looking forward to meeting you,

TF

7:52 PM

Scott Angelle

Good deal. I get started early so Monday am likely not best for you. I'm available after 10 am tomorrow all day and anything after330
on Monday. Whatever works best and easiest for you is just great with me. I'm excited about the opportunity. Let's roll!

8:01 PM

(b) (6)

How about coffee or brunch tomorrow at 10:30? If that works, name the spot. If we need reservations, I will work on that and get back to you. 8:26 PM

Scott Angelle

I'm very low maintenance and I know nothing about the city. I'm going to mass at (b) (6) and to the office after that which is 1849 c street NW. something close by would be perfect. A coffee shop or anything works for me. I will be in shorts so casual works. Starbucks is fine. You decide. No worries. I'm one of 9 kids I'm adaptable ! Just let me know 8:31 PM

(b) (6)

Perfect. Let's do the Starbucks on E street at 10:30 tomorrow. See you there! 8:43 PM

Scott Angelle

Please provide the exact address. I'm afraid there are so many Starbucks I will go to the wrong one 8:47 PM

(b) (6)

1957 E Street, NW. See you then! 9:01 PM

Scott Angelle

Perfect. 9:02 PM

Sunday, July 15, 2018

Scott Angelle

Thanks for taking the time to visit 1:45 PM

(b) (6)

Likewise! See you tomorrow. 1:51 PM

Scott Angelle

May be a small complication tomorrow. I will know in the am. What time would be the earliest you could arrive? 8:11 PM

(b) (6)

I have a 2pm meeting that I expect to last about an hour. I said 4pm to give me a buffer to go long. I could probably be there at 1pm for 15 minutes or I can come later in the day. 8:14 PM

Scott Angelle

Ok. I will be in touch. Did you get the video ? 8:15 PM

(b) (6)

Sounds good. I have it but haven't made it home yet to have a chance to see more than the intro - that accent isn't so bad! 8:20 PM

Monday, July 16, 2018

(b) (6)

Do you need me to work my what over to the Starbucks? Otherwise I will be here at 4pm and wait for you. 1:00 PM

You suck, at your job and at life. You suck at being a good person too. Please quit your job. You're an embarrassment to yourself and your family, but more so to us Americans who work hard everyday and exhibit dignity and honor in what we do. Come to think of it, you should submit a public apology to a major newspaper for your malfeasance and then go go off a bridge. But, since you're clearly a dishonorable cockroach, you won't. Pity for us all.....

Jason Anderson, 35, Midfield, Texas.

Jason Anderson wasn't even supposed to be on the Deepwater Horizon that day. Anderson had been with the rig since it launched from a South Korean shipyard in 2001. By 2010, the Bay City, Texas, man had risen to senior tool pusher, akin to a foreman on a construction site.

Anderson was transferring to another rig, and went out to the Deepwater Horizon to train his replacement, says his widow, Shelley. When he arrived, the trainee wasn't there, but Jason stayed over to clean out his locker and spend just a little more time with his "rig brothers."

For the public record, my father worked whole life to ensure labor safety for industry workers. You sir care more about money than the safety of workers. In my opinion you have no honor.

Hey Scott! Just in case you were trying to enjoy shrimp anytime soon enjoy this photo as well....yummy Tumor shrimp from oil spills! Grow some balls and invest in the energy you speak of from the birds and the bees and flowers and the trees? Not sure if you've heard of solar energy yet.... newsflash: it doesn't cause shrimp tumors... juicy juicy shrimp tumors .....thanks

I hope this remains part of the public record. Safety in energy production as well environmental safety should be paramount in this organization. It is extremely scary and troubling that you cater to the people you are supposed to regulate. It sets a bad precedent and puts millions of people at risk. Please do better.

Safety regulations and environmental regulations on oil production are too weak. Unfortunately there are always leaks in the entire process. Salt water injection wells kill the flora around them. Rigs constantly vent off poisonous gasses to the atmosphere. Repeated Chemical exposure to pumpers, pushers, and roustabouts leads to early cancer deaths. That's not even considering other hazards such as blow outs, falls, and equipment hazards. Only a greedy fool would call to ease safety and environmental regulations on fossil fuel production.

Dear Mr Angelle,
I am contacting you as a private citizen of the United States of America, the nation whom you serve as the director of the Bureau of Saftey and Environmental Enforcement and I am concerned with the actions you have taken while in office. I believe first and foremost that your role in this office is to improve safety and ensure the protection of our environment in relation to offshore drilling, and I do not feel this is being done to the best of your offices ability. I would ask that you refrain from having businessmen contact you off the public record as it goes without saying this act increases the likelihood of corruption on your part ten fold while also destroy our nations environment directly because of the steps you are taking. I would ask you reconsider your role in the Department of the Interior and move forward in a manner that is befitting this role to best serve the American people firstly and any business interests lastly. I thank you for your time and this opportunity.
Sincerely, Average Joe

If this is the Secretary for BSEE. Please do not change the rules for offshore drilling. It was your state that is still suffering from the effects of Deepwater Horizon. Put aside your greed and desires for monetary wants and remember that you serve all the American people.

Please don't reopen the California or Alaska coasts to offshore drilling. Marine habitats vital to the west coast are already under intense pressure from pollution, climate change, and shipping.

Mr. Angelle, after being made aware of your self-dealing pursuit of profit and gain from the oil and gas industry, I have found you to be hopelessly compromised as a supervisory federal regulator and conclude that your selfish hypocrisy is an affront to the ideal of honest, fair governance. I suggest, moderately respectfully, that you can and should remove yourself from a position that you so flagrantly abuse and simply move your passionate suckling at the corporate teat to a setting not subsidized by the American taxpayers, whose best interests clearly mean so little to you.

Only the best.....
Brian Harnett

Off the record, if I knew someone had overclocked a PC connected to a deepwater drill such that it allowed us to overreport progress and thus bill more hours (I'm simplifying, but you get the gist), there's nothing short of a bunch of lawyers and a court case that would force me to reveal that I had knowledge of its existence, right?

Hi, Scott. Just got your number from Last Week Tonight With John Oliver. Can you please ask your good friends, The Donald and the oil company you took money from, to Drain the Swamp of the Delaware River in Philly? Philly likes its fish, not only polluted, but nice and greasy. Thanks for your help, Scotty. I'm so glad Donny has put you in charge of protecting us from those pesky creatures in our rivers and oceans!

Dear Mr. Angelle, Your decision to roll back safety rules on offshore drilling platforms is reprehensible. Have you no recollection of the Deepwater Horizon? Are you an oil company lobbyist? You are a disgrace and should resign immediately. Until we meet again I remain, as always Your faithful servant.

You are a terrible excuse of a human being. You must not care about the futures of your children or grandchildren. Is this on the public record?

We need more renewable energy resources. Climate change is real. My grandchildren wont even be my age in 2040 when scientists say the earth will be too hot to support human life . How do you feel about your great grandchildren not being able to live as you do now because you support the oil industry and want to make money. Can your money change how messed up the climate is getting? I wonder what you plan to tell them. Will you be honest about how you sold the earth down the drain so you and your oil companies can make money. Will you tell them you cared more about money than your grandchildren's children?

Mr. Angelle, I urge you to prioritize the best interests of the people of this country over those of the oil industry. The Deep Water Horizon disaster should never be allowed to happen again. Restrictions on oil drilling are necessary for public safety and health, for ecological health and for the economies of the places in which drilling occurs. It is not your job to protect oil industry profits--it is your job to protect the public.

My family eat shrimp from the gulf. Am happy to go on the record to say you are responsible to poisoning my family and millions of others. How do you live with yourself. Also devaluing the value of gulf shrimp. STOP PLEASE!!!

11:41 PM

(b) (6)

I apologize in advance for using this verbiage but you are a murderous monster. I will do more than encourage everyone I know to vote against you. Shame, shame, shame on you. I believe you are directly responsible for the illness and deaths of dozens of thousands. Please change your position for the safety of hundreds of thousands of Americans. I thank you for your time.

11:45 PM

(b) (6)

I hope you accept this in the spirit in which it is intended. I firmly believe you are a murderous monster who is directly responsible for the deaths of thousands of not millions. I would like to believe that you are far better than that as a human being. Wake up and see the light, I beg you. Thanks!!!

(b) (6)

Oh, just want to make sure that so many of us believe you are a murderous bastard who only cares about your own ability to make millions. I apologize in advance if I'm wrong and I desperately hope you are not taking industry money that endangers the lives of your constituents and soooo many others. If you have woken up and smelled the roses I offer you my apology and my deep, deep apologies. I sincerely believe I'm misinformed and the you care about your family's welfare exactly as you do my family's and friends. I would so prefer to believe that you are not a selfish monster. I'm just sorta afraid that I am right. Please price us wrong! Do the right thing!!! So grateful if you do. In fact, will add you to my prayers every single day of you will. Let's start. Bless you for doing the right thing!!! Please save lives from being poisoned by the petroleum industry. Change your ways. Thanks so much for doing the right thing!!! Bless you brother! May none of your beloved family be poisoned by your previous actions. I sincerely hope so.

12:02 AM

(b) (6)

Thank you in advance for no longer being a selfish, murderous monster. I knew you had it in you to join he human species. I knew you could do it until now murderous monster. Hope your enjoying your life so much more now that you've joined the human species. Enjoy your new position amongst every one else!!!!

Mr. Angelle, how can you sleep at night? Do you care more about money, or our beautiful nation, and our childrens future?

10:53 PM

(b) (6)

I am disgusted by you, and you should be ashamed by your actions. I am saving these messages, and happily including them as public record. SHAME!!

"America is not yet ready to get all it's fuel from the birds and the bees, the flowers and the trees." Ignoring the fact that trees have been powering innovation for generations with the ancient invention of wood burning fuel, you've completely overlooked the fact that America is attempting to use WATER, AIR, SUNLIGHT, and COMPOST WASTE as fuel. Not any of the other weird, rhyme-y stuff you listed. Do you know what EPA stands for, or are you just excited that Trump noticed you hiding out in the swamp he keeps BSing about draining?

Since this text is a matter of public record, I think you should know that I feel, as an American citizen, that our country should very strictly regulate oil well and oil drilling platform safety.

In a few decades, when the air is full of sulfur, all of the fish are dead, and there are decade long droughts and often floods, never, EVER, complain. People like you are going to be the downfall of the natural world, freedom, and society. Let this enter the public record as a warning to you, and everyone in the world.

Mr Angelle: your job is to establish and enforce safety requirements in regard to offshore drilling, etc. Your job is not to promote the oil or energy companies in any way. Publicly supporting the oil industry as you have repeatedly done (as evidenced in the public record and numerous video recordings) is in no way acceptable. Further, repealing safety regulations to benefit oil companies' bottom lines---regulations that protect American workers physical safety and the environment--- is completely unacceptable. It is unequivically clear that you have an inherent conflict of interests between your industry connections and your current duties as a public servant. I, among numerous individuals in my social and professional circles, expect nothing less than your immediate resignation. Thank you.

Director Angelle,
I'm Tom Goin, and I participated in the API/BSEE Bolting Meeting yesterday.
I chair the API 20E and 20F Task Groups. My "real job" is President of US Bolt Mfg., in Houston and CEO of it's parent company, WN Global.
Given the industry concerns related to Bolting issues, I thought you might have an interest in touring my manufacturing plant in Houston. If so please let me know. I'm sure you'll find it very interesting.
On a side note: (b) (6) [redacted]
Call me if I can be of any help.

Sounds great. Please send me an email invite and I will seek to include on a subsequent visit to Houston

Sir, please let the record show that I do not approve of your policies of profits over the people.
I do hope that we Louisiana natives are portrayed in a much better light in the future.
Also, as a veteran, I find your boss's behavior unacceptable and particularly egregious when it comes to treatment of our vets and military.
Thank you for making yourself available by disclosing your phone number, and I wish you the best of luck.

Change your number yet? If you make the $900million dollar cut to oil companies go through I am happy as long as gas prices go down. If they don't then you are just another puppet with big oils hand up your ass.

I just read about you Mr. Energy Secretary. You are a horrible person and apparently you did not pay attention during your schooling. We, the American people are watching you, you have outstayed your welcome. Please retire before we force you out. You are the epitome of the swamp. The blue wave is coming and if your lucky you will fade from America"s memory. My personal hope is to see you in orange, it goes quite well with the color red. You are a stain upon the ethical and moral values that this country was founded upon. You should feel quite at home behind bars as I'm certain your fellow traitors will be there to hold your hand. You disgust me, perhaps your Christianity will offer you forgiveness and redemption, for we the people will not. You will reap what you sow,. Feel free to publish this, for I certainly will.

Mr. Angelle,
I'm curious how effective you believe your method of enforcing safety are for the workers and the environment. We have seen errors and history will repeat itself if we don't heed our mistakes. What actions are you planning on taking that might positively improve the safety of the environment, in regards to either the construction or management of oil rigs?
Do you believe companies should have to remove oil rigs after having completed operations at that location?

Hi. You are not representing me, your constituent by giving into oil executives wishes. If we do not stop using fossil fuels in the next ten years, the world will be irrevocably damaged by climate change. It's unfathomable how you could take short term personal gains and trade them in for the future of our planet.

If you have any children, please think of them. The world will be a grim wasteland if we don't change our ways.

Thanks for your time,
Sam Dale

While I respect your public service , I will be petitioning and giving money in the next Congress to insure that you are fulfilling your duty to regulate the oil industry and protect America's beautiful coasts. I will support you as well as long as I am satisfied that you are adequately performing your duty to the American Public free from industry or inappropriate executive influence. Again thank you for your public service.

Oil Rig Safety guy... I just watched an enlightening episode of Johnny trigger warning. Evidently "OIL RIG SAFETY" IS NOW ALSO BUSINESS OPPORTUNITIES. WHICH IS BOTH UNETHICAL, AND HONESTLY, HISTORICALLY TYPICAL OF REPUBLICANS. I DONT KNOW WHY, YOUR TINY LITTLE BRAIN CANNOT GRASP THE REALITY OF PAINFULLY OBVIOUS EFFECTS THE OIL INDUSTRY HAS ON OUR ENVIRONMENT, POLITICS, AND DEPENDENCY TO OLD OUTDATED, DIRTY, COSTLY ENERGY, BY CORPORATIONS YOU ARE EAGERLY AWAITING TO DO "BUSINESS" WITH...AS THE OIL RIG SAFETY GUY. I HOPE THAT AT THE VERY LEAST. YOU REALIZE THE STUPIDITY OF JUST HANDING OUT YOUR NUMBER, PUBLICLY ANNOUNCING IT, EVEN WARNING THE UNETHICAL, GREEDY, OUTDATED, POLLUTING CORPORATE CRIMINALS "TO BE CAREFUL" I HOPE YOU ARE QUICKLY INVESTIGATED, REMOVED, AND LOCKED UP. WHILE YOUR ASSETS ARE FROZE, FORFEITED, AND SOLD OFF....

BECAUSE YOUR ACTIONS INVOLVE PLENTY OF ILLEGAL ACTIONS WITH THE DIRTY OIL INDUSTRY ACTIONS AS THE OIL RIG SAFETY GUY. DEMOCRATS WILL BE TAKING THE HOUSE. YOUR ACTIONS WILL HAVE CONSEQUENCES... HONESTLY FOR THE SAKE OF ANY FAMILY YOU MAY HAVE, WHO WILL BE THE MOST NEGATIVELY EFFECTED. I HOPE THEY ATLEAST KNEW YOU WERE SO CORRUPT, TO PROTECT THEMSELVES.

1:08 PM

DURING THE #noDAPL protests. The owner of Energy transfer partners sent this statement to MSNBC...BLASTING WAR VETERANS ABOUT WHAT THEY WERE GOING TO DO... SOMEHOW TRYING TO APPEAL TO THEIR PATRIOT IN THEIR HEARTS, FOR MONEY... IS SICKENING.... "TENS OF THOUSANDS OF BRAVE MEN AND WOMEN WHO FOUGHT AND DIED IN FURTHERANCE OF AMERICAN ENERGY SECURITY... THIS IS WHAT YOU... THE OIL RIG SAFETY GUY DOES TO HONOR ALL THOSE LIVES LOST SO YOU COULD GET RICH? SHAME ON YOU! PONDER THOS WHILE YOU GET MORE TEXT MESSAGES....https://photos.app.goo.gl/9SH2qPmzjkBAhNwi7

Good morning. I know you meant this number only for oil executives to bribe you but I live in Florida where we still can't fish reliably because of the oil spilled by the deep water horizon disaster. Please, for the love of God, do your job and protect the environment and the people. Take pity on those that were fooled into voting for Trump and enact regulations to prevent further disasters. When you die, if you continue your current path, you will be remembered only as a corrupt official who contributed to the demise of the environment but there is still time to change that. When history books are written no mention will ever be made of your personal wealth but history will remember your deeds.

Mr. Angelle,

i believe you are on the wrong side history. The US is ready for renewable resources. Already, in spite of the current administration's effort to support the coal industry, the cost of gas and renewable power is more economical and oil is going the same way.

There is no reason to sacrifice safety for oil profits.

David Cutler

When Deep water Horizon happened I was in Galveston, TX. Please do not remove the safety regulations that were put in place to avoid similar disasters in the future. The US can't go straight to clean energy, and needs oil. But that shouldn't mean that we get oil at the expense of the world around us. I'd be happy to discuss this further at your earliest convenience. Thank you. Sincerely Rachel Crowley.

Hello, just a citizen of the United States wondering why you give this number, your work number, out to oil executives when your sole job is protecting the oceans from another oil spill? But Mr. Angelle, I know you don't want this sort of thing to be on the public record, which is why i'm making sure it is by sending you a text! Remember that even though you're making a few bucks in your pocket, you are taking part in ruining the Earth for not only myself and the rest of the people in the world, but for your children as well. If the health of the American citizens can easily be ignored by you, at least remember your children. I hope you think about the impacts of your actions towards the American people, the fishing industry, the aquatic sea life that you take part in destroying, as well as many others, Mr. Angelle.

Sir, I am an American citizen and I am watching you. So are millions of Americans. Take care of the department to which you have been entrusted, because We The People care about the BSEE and your personal attempt to sell our country out is NOT something that is going to be taken lightly. Tread on us at your peril sir.

Hey oil fuck! I hope this does become part of public record since it's a text and not a call. Why would you want to deregulate safety procedures on oil rigs? Regulators in your industry are supposed to protect the environment and more importantly the personnel on those rigs. Everything you are doing goes against that so I have to assume that greed is motivating you. I hope you search your soul before you keep destroying our environment and the hard working people you "claim" to be working for

Hey! Way to be a terrible appointee to BSEE. You can thank John Oliver for the reveal.

You should probably watch it. I hope you'll need a new number from the hate texts this will bring. It is literally the least you deserve at this point.

Good news. You can change and stop with the greed

Hello,
I would encourage you to stop giving your number out to oil executives and posting your terrible deeds on youtube... you are a civil servant meant to protect marine life from oil spills. The blood of nature and the community that will suffer from oil spills will be on your hands. As corrupt as you are stop and think about what you are doing for your nation, and the future of it. You are part of the problem. Do better.

If this is Scott Angelle, I really need you to know that you're an egregiously selfish, ego-driven, self-interested piece of shit. I can't believe that a stupid fucking twat like you, who gives their numbers out to oil executives, could even fucking pretend that you give a fuck about anything more than personal gain. You're a fucking disgrace to humanity, even for a trumpist-republican. Eat shit. Also, I'm texting you because I want this on public record. Get fucked, Scorr

I'm concerned about safety on offshore drilling platforms. What are you doing to enforce regulations and introduce new ones for American workers? Since the Exxon-Valdez, Deepwater Horizon, and other spills, I've been worried about what we are doing to protect our world and the world for our children.

You have no business overseeing safety for offshore drilling, and you know it. You, and your conflicts of interest, your total lack of respectability and accountability, are the problem.

Humans have used wood for energy for tens of thousands of years, dumbass.

Hey there Scott, you Trumpy Swamp-Monster you. I just want to explain to you as part of the public record that tree-produce fuel is called firewood. Bee produced fuel is called honey. One heats my house the others fuels my tummy. See my poetry is better than yours too! So since I drive a Tesla please use my share of America's off-shore oil production and keep it for yourself. Maybe lube-up as much and as often as is necessary to entertain your petroleum executive buddies. P.S. John Oliver says hi.

What I want from your office ranked in order of impotance: #1 Safety for the workers. #2 Work towards a sensible balance of business profitability and environmental responsibility. If those are your guiding principals, you intentions cannot be questioned. Any action that does not follow those guiding principles will rightly be criticized. Being a public servant is actually very simple, unless you allow yourself to be corrupted.

Oil drilling is a bad idea and will lead to more leaks, I am young, and I want you to please not continue to kill the planet that we will inherit. It might give temporary energy, but the cons will eventually out way pros and help to ruin the Earth in our future. Please

Hello Mr. Angelle.
I hope you're having a great weekend. I'm reaching out to you to ask that you protect our natural environment from oil drilling interests. I hope you take your position seriously and don't bow into submission to petroleum companies. That would be a shameful way to abuse the power that you have.
I believe in you and again, I hope you are well.

Thank you.

Hi

4:18 AM

[redacted]

If this is Scott Angelle's number, you will be receiving this text everyday. Stop hoeing out to oil companies and protect the environment. I'm not sure if you've noticed, but proctecting the environment is, in fact, your job. If you don't like it, quit and go back to sucking off oil executives. If this is not Scott Angelle, so sorry, please have a lovely day!

It was great speaking with you earlier. Thanks for reaching out to our program Project DAD at People for People Inc.
https://youtu.be/3CdtdncCwc8
As you will notice from the brochure attached, we are passionate about equipping our fathers with the tools to become responsible parents, develop healthy relationships and become gainfully employed. Our program runs for a total of 8 weeks Monday through Thursday from 10:00 am- 2:00 pm. During this time, participants will have completed Family workshops and Economic Stability workshops along with three Certification Trainings-OSHA Forklift Certification, OSHA 10, and ServeSafe. Our next Orientation is 1-08-19 and 1-09-2019 at 10:00 am at People for People, Inc. 800 N. Broad Street Philadelphia, PA 19130. In order for interested fathers to qualify for our program, they will need to have a child 16 and under, do not have full custody rights to their children, and they must be able to attend all 8 weeks from 10:00 am-2:00 pm without any prior commitments that will conflict with this schedule. Please let me know if you have any additional questions regarding our program.
Thank you again,

Is this number still in service? If so, you are an awful human being and you need to watch Deepwater Horizon and maybe worry about your children's children... And if you don't have any children, maybe you should worry about other people's children's children... Also, can I have some money?

Please take a moment to consider the possibility that you may still have an opportunity to redeem not only your public character, but your standing in the eyes of God. Don't take another step in the direction of destruction. In the Lord's name make preservation of creation your priority. And God bless you take the reigns and lead us devil's fodder out of the water and unto renewable energy praise Jesus. 10:44 PM

To the head of Oil Rig Safety, you are unfit for your job, you clearly prioritize greed over the health and safety of the public and the planet, which makes you an evil person. If you had any decency, which let's be honest you don't, you would resign. You aren't making America great again, you are making the world worse. Please step down so someone who actually cares about oil rig safety can step in and do the job you are clearly trying to sabotage. PS, you sound like a rejected Muppet. Cheers.

Hey big boy
I like oil.
Do you?
How much?
And, how much?
wink wink
Let's get together
on the beach in
LA

Do you take small bills?

Quack quack quack
